

REMARKS

Claims 1-22 are pending in this application. By this Amendment, claim 1 is amended to recite "the mount and at least a portion of the scanning device being relatively linearly displaceable" and to remove "the scanning device and mount are relatively displaceable", for clarity claim 5 is amended similarly to claim 1, claims 2-12 are amended to improve punctuation, and claims 13-22 are added.

New independent claim 13 corresponds to claim 5, but recites "an actuator for displacing the receptacle". New independent claim 18 corresponds to claim 5, but recites "means for displacing the receptacle".

Applicants submit that the claims are patentable over the references of record for at least the reasons that prior claims 1-12 were patentable over the references of record.

Continued examination and allowance are requested.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,

James A. Oliff
